VEAVETEX

About Us

We “VEAVETEX” have been the pioneers in Polyester Knitted & Woven Fabrics for the last 2 decades. Our early entry into China in 2002 have enabled us to cement our position as the only Indian Trader in Keqiao, China to invest in the Yarn ourselves via our in-house technical team and created strategic alliances with Weaving & Dyeing factories who share the same philosophy of quality control and delivery value. We cater to woven, circular or warp knitted fabrics as per the client’s requirements and have a diligent team committed working through every stage of production, inspecting, packing & consolidation of the finished goods in our 10,000 square feet facility in Keqiao Shaoxing China.

WEAVE TEX

Our Philosophy

Our CEO, Mr. Naren S Shewaramani, has the ideology “More for Less”. Hence the only way striving forward is through aggressive vertical integration, so value addition is directly passed to returning clients though both price & quality.

“We inspect the goods at every step weaving, dyeing & packing making sure only quality products reach our clients warehouses with whom we have successfully built long term mutually beneficial partnerships across the globe. The key to any business is a returning client, and this is a direct result of meeting quality requirements along with matching client’s market price expectations”

VEAVETEX

Product Portfolio

Now in 2022 we have decided to bring our expertise and experience into the Indian Domestic Market with high quality imported fabrics. Some of the product line we are introducing
